To: Members of the Board of ICANN

Dear Members of the Board of ICANN,

On behalf of the Kentucky Equine Humane Center, I am writing to convey our full support of the Dot Horse Project, LLC. The Kentucky Equine Humane Center believes the .horse domain should be secured, created and operated for use by equine-related organizations, businesses, and horse enthusiasts through the Dot Horse Project, LLC.

Securing this top-level domain, as conceived and proposed by the Dot Horse Project, LLC, represents the best interest of Kentucky's signature horse industry. The Kentucky Equine Humane Center is an all-breed shelter that never turns away a horse in the Commonwealth of Kentucky in need of shelter and humane treatment. We have served more than 400 horses in the two years our doors have been open. The Kentucky Equine Humane Center is the first-of-its-kind shelter in the country. Our no-cost, no-question, open door policy for the surrender of all equines, including miniatures, donkeys, and mules, gives equine owners a humane solution when they can no longer care for their animals. Equines that are physically and mentally capable are then adopted out to loving homes.

The Kentucky Equine Humane Center asks that you look favorably upon the application of the Dot Horse Project, LLC, for the .horse top-level domain.

Sincerely,

Lori Neagle  
Executive Director

Kentucky Equine Humane Center, Inc. P.O. Box 910124, Lexington, Kentucky 40591 Phone 859.881.5849
